

Advanced Standing Guidelines

Requests for advanced standing in the Foundations of Medicine will be considered on a course-by-course basis. They should be directed to the Associate Dean for Undergraduate Medical Education (UME), who will forward them to the appropriate course co-leaders. The course leaders are responsible for determining if advanced standing should be granted, and whether any additional course-related activities are required of the student.

Process:

- Curriculum committee discusses and confirms which courses will offer advanced standing
- Co-leaders of each course determine criteria and process for attaining advanced standing, and assess student
- Requests for advanced standing are centralized through the Associate Dean for UME, and then directed to the course co-leaders
- Course co-leaders inform the Office of UME whether or not the student is to receive advanced standing
- The OUME maintains a database of all students who request advanced standing and the outcome of each request
