

TurningPoint 5 Polling Technology

Import a Polling Session Results to Blackboard

Student results from a polling session can be saved as part of a participant list, and then imported into the Blackboard Learn Grade Center.

1. Open Turning Point and click the **Manage** tab.
2. Click the **Results Manager** button in the lower right corner of the screen. A results status bar will display momentarily as the system processes the data.

4. A pop-up window appears. Select **Blackboard** from the drop-down list, fill in the server address of our Blackboard site (<https://umassmed.umassonline.net>), and then enter your own Blackboard user credentials. There is no need to select institution. Click **Remember this information**, and then **Connect**.

Please note that the connection process could take a minute or more to complete.

A screenshot of the 'Connect to Integration' dialog box. It features a title bar with a close button. The main area contains a dropdown menu for 'Integration' set to 'Blackboard', a text field for 'Server Address' with the URL 'https://umassmed.umassonline.net', a text field for 'Username' with 'wworden', a password field for 'Password' with masked characters, and another dropdown for 'Select an Institution'. At the bottom, there is a checked checkbox for 'Remember this information', a blue 'Connect' button, and a grey 'Cancel' button.

5. Select the column(s) to be exported and click **Export**. Optionally, select the **Active Participants Only** option to include only participants who responded to at least one question within the session. The **Export to Integration** window is displayed.

A screenshot of the 'Export to Integration' dialog box. The title bar includes the text 'Export to Integration' and a close button. The main text area states: 'TurningPoint will export 1 column(s) to Blackboard. This may take several minutes and should not be stopped once it has begun.' Below this text is a button labeled 'Select District Test'. At the bottom, there are three buttons: 'Back', 'Export' (which is highlighted with a red rectangular border), and 'Cancel'.

6. Click **Export**. The session data exports from TurningPoint and imports into the Bb Learn course. When the process runs successfully, you will see a success message:

A screenshot of a small success message dialog box titled 'TurningPoint'. The main text reads: 'TurningPoint has successfully exported 1 data column(s) to Blackboard.' At the bottom center is a button labeled 'OK'.

7. Log into Bb Learn to view the imported session data in your course **Grade Center**, where you will see a new column with the same name as your participant list.
