Permanent Address Change Form

Please type or print information legibly.
This form must be signed.

Name: Last _____ First _____ Middle _____

Student ID/SSN _____

This is a request to change my permanent address. Please update your records to replace my previous address.

Domestic Students: Your permanent address, initially entered based on your application for admission, is used as one of the factors in determining your residency classification for tuition and fee purposes. It is your **“home”** address--where you reside when not currently enrolled or when classes are not in session. It must be a physical location with a valid USPS mailing address.

International Students: Your permanent address must be your out-of-country, permanent, physical home address and not a post office box.

NOTE: Changing your permanent address will not necessarily change your residency classification for tuition and fee purposes. Your classification as in-state or out-of-state for tuition and fee purposes is made in the Office of Admissions, based on the rules and regulations of the state of Massachusetts. If, for any reason, you have a question about residency classification, you must request a review of your residency status before classes begin.
