

Graduate School of Nursing

PhD Program—DNP to PhD

The University of Massachusetts Medical School (UMMS) is the commonwealth's first and only public academic health sciences center and consists of 3 schools. This association provides for a rich interprofessional environment for learning and practice experiences.

The focus of the UMMS GSN PhD program is on the development and transformation of scholars who will lead the discipline of nursing. Our program is influenced by the cognitive philosophy of Bernard Lonergan. We welcome students to engage in a transformative process of wonder and discovery, self-reflection, critical thinking and genuine dialogue with other students and faculty.

Why consider the UMass Medical School Graduate School of Nursing PhD program?

- ◇ Small student to faculty ratio
- ◇ Classes scheduled on one day/week
- ◇ Average time to graduation 4.5 years
- ◇ Access to courses and scholars at all UMass campuses
- ◇ 90-hour practicum in research, education, or leadership
- ◇ Research socialization activities with nationally known visiting scholars
- ◇ Cohort model facilitating a cooperative learning process among students

PhD Program Pathways:

- ◇ DNP to PhD (36 credits)
- ◇ MS to PHD (45 credits)
- ◇ BS to PhD (54 credits)
