

Graduate School of Nursing

Bachelor of Science in Nursing (BSN) & Pre-Graduate Option (PGO)
to Advanced Generalist RN

The University of Massachusetts Medical School (UMMS) is the commonwealth's first and only public academic health sciences center and consists of 3 schools. This association provides for a rich interprofessional environment for learning and practice experiences.

The BSN & PGO to AGRN program is designed for individuals with a BSN or a RN license with a bachelor's degree in a non-nursing major (PGO). Graduates of this program are Master's prepared RNs who are educated for various healthcare career opportunities including leadership, practice, and education across multiple health settings and populations. This program is differentiated from other similar programs, because of its combined administrative and community-based population health foci. Program flexibility allows students to take additional electives if interested in a specialty.

The Graduate School of Nursing (GSN) also offers Doctoral degrees, as well as Post Graduate Certificates to create a seamless transition to further educational opportunities for changing career goals.

Achieve a Master's degree in 1 year

The Graduate School of Nursing's leading edge on nursing education:

- ◇ Small student to faculty ratio
- ◇ Flexible learning options
- ◇ Interprofessional learning and resources
- ◇ Clinically active and practicing faculty
- ◇ Commitment to underserved & vulnerable populations

Please refer to the UMSS GSN website for admission requirements: www.umassmed.edu/gsn

Full Time Master's Curriculum BSN to AGRN = 30 total credits
