

Emeritus Status

In accordance with the University of Massachusetts Policy for Awarding Emeritus Status ([Doc. T93-054](#), as amended), emeritus status is awarded to a Faculty Member who has permanently retired. Normally, emeritus status is granted only to an individual who has served as a UMMS Faculty Member for ten or more years and who has attained the rank of Professor.

In accordance with the Academic Personnel Policy of The University of Massachusetts Medical School ([Doc. T95-022](#), as amended), Employed Faculty ([Article 5](#)) and Affiliate Faculty ([Article 6.3](#)) are eligible. Emeritus status is designated by the Chancellor upon recommendation of the Provost, following a written request by the chair, SOM Dean or GSN Dean (as applicable). The term “Emeritus” follows the academic rank or title (e.g., Professor Emeritus of Department; Chair Emeritus of Department) and is an honorific designation.

The following is a list of all faculty who have obtained Professor Emeritus status.
