FCE DESCRIPTION

In this session, students will get to work one-on-one with an orthopaedic oncologist. Students will be exposed to diagnosis and treatment of musculoskeletal oncologic conditions. Exposure to other fields of orthopaedics will be had as well. Students will attend outpatient clinics as well as assist in surgical cases in the operating room.

FCE LEARNING OBJECTIVES

By the end of the session, students should be able to:

- identify musculoskeletal oncologic conditions
- appropriately evaluate a patient with a known or suspected musculoskeletal neoplasm
- understand the general treatment algorithms for benign and malignant musculoskeletal lesions
