Location	ACC 2 pediatric endocrine clinic
Day One Instructions	9:00 am: report to pediatric endocrine clinic ACC 2

FCE DESCRIPTION

Students will attend the outpatient pediatric endocrine clinic daily where they will work with an attending pediatric endocrinologist to see a variety of endocrine disorders including disorders of growth, puberty, thyroid, adrenal gland and diabetes. Students will have the opportunity to shadow a certified diabetes educator to gain experience in diabetes education.

FCE LEARNING OBJECTIVES

- learn about a variety of endocrine disorders seen in children and adolescents
- differentiate between normal and abnormal growth patterns
- learn about the newborn screening test and the diagnosis of congenital hypothyroidism
- learn about the outpatient management of diabetes mellitus and the importance of a team approach involving certified diabetes educators, nutritionists and behavioral medicine specialists

UMMS Competencies	Professional, Scientist, Communicator, Problem Solver
Inter-professional	No
Interdisciplinary	No
Evaluation Type	Attendance, Effort, Participation
Evaluation Criteria	Case Presentation
Prerequisites	None
