Day One Instructions	Report to Joan Lange, Renal Medicine Office Manager

FCE DESCRIPTION

The student will have an opportunity to help assess patients in the in-patient and out-patient setting undergoing evaluation of advanced kidney disease. Time will be divided between dialysis and transplant clinics on the UMass University Campus and at one of our satellite dialysis clinics.

FCE LEARNING OBJECTIVES

- Understand the causes and pathophysiology of ESRD
- Appreciate the syndrome of uremia
- Be aware of the treatment options of dialysis and transplant therapies.
