Day One Instructions	8:30a: Report to H8-305, MARCIA LANDRY, Administrative Assistant

FCE DESCRIPTION

The medical student will spend time with me during inpatient rounds and in outpatient clinics. He or she will be assigned one or two inpatients with new onset hematological malignancies such as AML or ALL or Lymphoma and one or two outpatients with Multiple Myeloma. The medical student will take history and perform physical exam and then present to me. An opportunity will be given for the student to present at the Hematological Malignancies Case conference. He or she will be taught at the bedside about the diseases, manifestations, treatment options. He or she will have plenty of opportunities to learn and be evaluated on all six core competencies. The Medical student will attend Hematology/Oncology Grand Rounds on Thursday morning at 8am, Morphology conference at 12 noon on Tuesday, Leukemia/Lymphoma conference at 5pm on Wednesday.

FCE LEARNING OBJECTIVES

- Name the different types of Hematological Malignancies
- Recognize the signs and symptoms of hematological malignancies
- Describe the role of stem cell transplant in the treatment
- Describe the different kinds of stem cell donors available and the importance of HLA matching

UMMS Competencies	Professional Scientist Communicator Problem Solver Advocate Person
Evaluation Type	Attendance Effort Participation
Evaluation Criteria	Clinical Skills Case Presentation
Prerequisite(s)	Interest in Hematology/Oncology/Stem cell transplantation
