Host Department	Neurology
Location	St. Vincent's Hospital
Day One Instructions	Please report to Dr. Izzo's office at St. Vincent Hospital, Suite 695 (6th floor, north side) at 8 am on the first day of the FCE.

FCE DESCRIPTION

The knowledge about the clinical impact of sleep disorders, such as sleep apnea, continues to grow. For students interested in neurology as a career, sleep medicine represents an area of fellowship training. However, sleep medicine is also a multi-disciplinary field, involving comprehensive care administered by neurologists, psychiatrists, otolaryngologists, and pulmonologists.

The student will work most directly with a neurologist, but also interact with multiple specialists to learn the approach and management of sleep disorders. The student will gain an appreciation for each specialist's contribution to a patient's care, and how they work together as a care team.

The student will have the opportunity to observe polysomnography at the St. Vincent's Sleep Lab, and to learn how to interpret polysomnograms. From this experience and training, the student should be able to effectively communicate the significance of sleep study results to the patient, as well as to other physicians on the team.

At the end of the experience, the student should be able to provide a brief presentation on a current research topic in sleep medicine.

FCE LEARNING OBJECTIVES

- Accurately complete a sleep history
- Research and develop an understanding of different sleep disorders including dyssomnias, parasomnias, and medical as well as psychiatric sleep disturbances
- Learn to interpret polysomnography and diagnose different sleep disorders
- Become familiar with the treatment and management of sleep disorders

UMMS Competencies Professional | Scientist | Communicator | Problem Solver

Evaluation Type Attendance | Effort | Participation
Evaluation Clinical Skills | Case Presentation | Oral Presentation
