Location	University Campus. Hospital. 2nd floor Heart and Vascular Lab (by elevator B). H2-468C
Day One Instructions	Students should report by 07:15 am at the Heart and Vascular Interventional Laboratory, University Campus, Hospital, 2nd floor (next to Elevator B) and ask the cath lab charge nurse to call Dr. Alonso. An orientation and reading materials will be provided. Students are encouraged to have a radiation exposure dose-monitoring badge, which would allow them to be present inside of procedure rooms (protective lead aprons will be provided in the lab).

#### FCE DESCRIPTION

Participants will be able to take part in the Heart and Vascular Interventional Laboratory, which includes evaluation, preparation, observation of the diagnostic and interventional procedures that are performed there, and follow-up care of patients with Cardiovascular disease. They will also be able to participate in a Cardiovascular continuity clinic and in the multiple weekly conferences. They will be able to understand the basics of Heart and Vascular invasive and non-invasive testing modalities.

#### FCE LEARNING OBJECTIVES

Participants will be able to learn and experience the rapidly advancing and exciting fields of Interventional Cardiology and of Vascular Medicine, and increase their knowledge about cardiac and vascular disease processes, their prevention, their invasive and non-invasive tests, their medical therapies and their interventional therapies.
