FCE DESCRIPTION

Students will choose from the wide variety of resident experiences and round with med/peds residents in various settings during the week, doing a different experience each half day. They will also choose 3 different teaching conferences to attend during the week.

FCE LEARNING OBJECTIVES

By the end of this session, students should have an understanding of what med/peds residency training consists of and have experienced rounding/working with several different med/peds residents and a few faculty in several different settings, ambulatory and inpatient. They will also attend a few different teaching conferences within pediatrics, internal medicine, and in the med/peds clinic.
