Location	Primarily at University Campus
Day One Instructions	Student should receive email from Jasmine Jones about one week prior to starting. Student should contact Monday's attending to coordinate location and start time. If students have any questions or concerns they are welcome to reach out to Dr. Morgan or Mr

FCE DESCRIPTION

During this one week experience, medical students will have the opportunity to interface with several UMass child psychiatrists and child fellows in a variety of clinical settings: outpatient child psychiatric clinic, inpatient pediatric consultation-liaison, outpatient consultation to primary care and inpatient care.

note: If all FCE blocks are filled, students with strong interest in child psychiatry are welcome to email Dr. Morgan directly to discuss potential openings.

Students will have 1:1 supervision from core child psych faculty on working with children, families and systems of care. The medical student will also have opportunity to participate in didactics and seminars when appropriate. Medical students who are interested in learning more about child psychiatry, pediatrics or family systems are encouraged to apply.

FCE LEARNING OBJECTIVES

By the end of this session, students should be able to explain a variety of levels of care involved in treating youth/families with mental health needs. Also, students should be able to describe the various roles that child psychiatrists play in assessment, treatment and consultation.
