The Fenway Guide to Lesbian, Gay, Bisexual, and Transgender Health (2nd ed.). (2008) Makadon H, Mayer K, Potter J, & Goldhammer H (Eds.). Philadelphia: American College of Physicians. [library call #W 84 AA1 F343 2008]

UMMS FCE 345: Expanding Knowledge of the Medical Needs of the Gay, Lesbian, Bisexual & Transgender Community

Dear Student,

Welcome!

We are pleased you have chosen our elective.

This reading course is designed to give you an understanding of the issues that GLBT (gay, lesbian, bisexual, transgender) patients may face when seeking medical care. The student is expected to read several articles and sections of the [Fenway guide to lesbian, gay, bisexual and transgender health](#). Websites and other resources are also provided for perusal.

At the end of the course, you will be expected to write a 3-5 page paper, give a verbal presentation or create a poster about the experience. You should email the paper to both Charley and Dr. Kumaraswami

In the **week prior** to your elective, please:

- Please contact Madeline Johns by email to coordinate when you can pick up the binder of readings so that you may utilize the entire week of your FCE.
- Contact Dr. Kumaraswami by email to discuss the expectations of the elective and discuss your plan for the paper/presentation/final product

Successful completion of this rotation is based on completion of the required readings as well as the presentation described above. We rely on the honor code of professional responsibility regarding completion of the material. In the event of emergency or illness resulting in your inability to complete the FCE requirements, please contact Tara Kumaraswami, MD, MPH (email preferred as I am not always in my office).

Please ensure that you return the binder to Madeline John's office located on Jaquith 2, office 24 on the last day of your FCE.

We hope you have a great experience and let us know if you have any questions or concerns.

Sincerely,

Tara Kumaraswami MD, MPH
