Day One Instructions	Stop by the Radiology Fellowship Coordinator's Office (Kathy Delongchamp) Room S2-817 for orientation.

FCE DESCRIPTION

This elective is intended for those students interested in learning more about the field of radiology and its role in medicine. From diagnosis, surveillance and treatment of disease, radiology is a complex field. The primary goal of this elective is to allow the student to explore radiology as a potential career. This elective allows the student to participate in the cutting-edge technology of radiology. We have found this is a gap in the education as they are not exposed to during their core clinical experiences.

Radiology is a broad field with multiple subspecialties, including neuroradiology, MSK, pediatrics, body, chest, mammography, ER and interventional radiology. Due to its diversity and the relative short time of a FCE, this elective focuses on neuroradiology. The student will learn about the role of the neuroradiologist in trauma, tumors, infection, inflammatory disorders, and degenerative process of the brain, head and neck, and spine.

The student will interact with the attendings, fellows, and residents to discover the career of a radiologist. By the end of the rotation, we hope that the student has a better understanding of the radiologist's role in a multidisciplinary patient care environment. If the student finds radiology to be a potential career path, then the student may consider a more in depth exploration of the radiology subspecialties by taking a general diagnostic radiology elective or our neuroradiology elective.

Note: Course dates are flexible and depend on availability. Please contact our clerkship coordinator to arrange times.

FCE LEARNING OBJECTIVES

- Understand the role radiologists play in patient care in a multidisciplinary environment
- Demonstrate familiarity with both common and life-threatening radiological diagnosis
- Describe the different imaging modalities and their appropriate uses in diagnosis

UMMS Competencies	Professional, Communicator, Problem Solver
Evaluation Type	Attendance, Participation
Evaluation	Clinical Skills

4900 | Fall 2018

1	Block 1A FE1 June 4-8, 2018
1	Block 1B FE2 July 9-13, 2018
1	Block 1C FE3 July 16-20, 2018
1	Block 2A FE4 September 24-28, 2018
1	Block 2B FE5 October 1-5, 2018
1	Block 2C FE6 November 5-9, 2018

4901 | Spring 2019

1	Block 3A FE7 February 4-8, 2019
1	Block 3B FE8 March 11-15, 2019
1	FE-Spring Break March 18-22, 2019
1	Block 3C FE9 March 25-29, 2019
