Women’s Health:  From Cell to Society – OE 961

Brief description (200 words or less of course details):

The goals of the Women’s Health optional enrichment elective is to facilitate a discussion about current topics in women’s medical care and provide a more in depth knowledge of medical concerns, social constructs and environmental factors that primarily affect the health of women. Topics are presented in a variety of formats and will include discussions of global health, psychiatric illness, and research and treatment of diseases affecting women.

Semester offered:  Fall

Registration information:  Contact student leaders below

Requirements for credit:

Students must attend 5 out of 7 session with brief reflections (1 paragraph). Additionally, students will have to attend the Worcester Breast Cancer Walk in October as an opportunity to engage with the community.
