

Weekly Evaluation Form

The purpose of this brief evaluation is to guide further curriculum development:

1. Please write down the single most valuable information you learned from readings and class in week xx
2. Please write down the number of new things you learned in week xx
3. We hope that all of these articles were valuable to prepare you for class and to introduce you to Implementation Science. For future year planning, we would like know your impression of the relative value of each of the articles. Please RANK the follow articles, assigning a unique number to each article (1 = most valuable, 2 = second most valuable, 3 = third most valuable, 4 = fourth most valuable, etc).
4. In the space below, please write in any suggestions you have regarding the readings, class content, educational methods, and class activities for week xx.
5. Please check the One which most applies to you:
 - ☐ I am a PRACCTIS postdoctoral fellow
 - ☐ I am a doctoral student in this class
 - ☐ I am a faculty member
