

Michael Andre, B.A.  
Clinical Research Coordinator

Currently a Clinical Research Coordinator in the Smelson Lab, Mike works on several of our criminal justice initiatives, tasked with project management, data collection/management, and data analysis. Coming to us after obtaining his bachelor's degree in psychology with a minor in neuroscience from the College of the Holy Cross, Mike's previous experience and training includes working as a research assistant in the Cognitive Neuroscience lab at Holy Cross where he helped manage projects studying craving and the cognitive neuroscience of substance use disorders, as well as working in the Stigma lab at Holy Cross, which studied the effects of possessing a stigmatizing identity (i.e. HIV positive, substance user) has on psychosocial health. Mike is currently working towards his Masters in Public Health at the University of Massachusetts Amherst/Worcester. His research interests include substance use disorders, mental health, co-occurring disorders, public health, epidemiology, psychiatric epidemiology, cognitive neuroscience, and health disparities.
