Small Molecule Screening Charges (in triplicates)

#	Library	Source	Size	Charge
1	Central Nervous System Targeted	Life Chemicals	5,000	\$2,700.00
2	Diversity Set	Life Chemicals	5,120	\$2,736.00
3	Diversity Set	Life Chemicals	10,240	\$4,272.00
4	DIVERSet	ChemBridge	30,000	\$10,200.00
5	Epigenetics library based on virtual docking	Life Chemicals	1,865	
	Epigenetics library based on similarity search	Life Chemicals	736	
			2,601	\$1,980.00
6	Fsp3-enriched fragment based	Life Chemicals	2,600	\$1,980.00
7	Library of Pharmacologically Active Compounds (LOPAC)	Sigma	1,280	\$1,200.00
8	U.S Drug collection	MicroSource	1,280	\$1,200.00
9	Epigenetics Compound Library	Selleckchem	181	\$250.00
10	Kinase Inhibitor Library	Selleckchem	429	\$415.00
11	Epigenetics Probe Collection	Structural Genomics Consortium	37	\$100.00

* Rates do not include Assay Development Charges of \$60.00 per hour

** Rates include consumables. Biochemical detection reagents are to be provided by the customer.
