

SHAPING THE FUTURE OF NURSING

Objectives for the Nurse Educator Track

- ◆ Provides an opportunity to acquire teaching skills and strategies that address student, program and patient outcomes as well as leadership skills to improve health care.
- ◆ Prepares a unique graduate who possesses a strong clinical foundation, leadership skills, and extensive knowledge of teaching and learning. This track requires clinical and educational practice.
- ◆ Develop nursing leaders with expert knowledge of complex health problems who will lead and or improve nursing practice in Worcester, the Commonwealth, and beyond.

The purpose:

The Master's Nurse Educator Track at the University of Massachusetts Worcester is to prepare graduates in faculty and staff development roles. The curriculum is designed to educate students to improve and transform health care through systems leadership, research translation, and advanced clinical knowledge. Graduates are prepared to assume leadership roles in hospitals and community-based settings, health care organizations, and schools of nursing as clinical faculty.
