

iPhone Configuration Settings

Iphone configuration

- 1) *The phone should automatically be updated to the new Office 365 settings. You will need to go into the mail profile to update your username from Umassmed\username to email address.*

- 2) *If the phone does not update itself, you will need to enter in the following setting manually.*
 - a. **Server:** Outlook.office365.com
 - b. **Domain:** Blank
 - c. **Username:** email address
 - d. **Password:** network password
